

- **Provide the MOST resources** the PAC can contribute to Pro Choice Democratic women candidates, the Republicans will have lots of \$, the Dems NEED to be Competitive !!!!
- **Register voters and provide Get Out The Vote support** (GOTV), particularly in key swing states where Trump won in 2016; Michigan, Wisconsin, Pennsylvania, Iowa, Ohio and Florida.

**House Judiciary Committee approved two articles of Impeachment against President Trump, Voting 23-17 on Charges of abuse of power and obstruction of Congress.**

Both measures will face a full House floor vote this coming week on Wednesday. Impeachment in the 435-member House must be approved with a simple majority. **Trump is expected to be impeached by the House.**

The House then will send the articles of impeachment to the Senate for a trial. The trial in the Republican held Senate is expected in January. No date has been set. McConnell said this week that the trial will be the first order of business in 2020.

**How this trial looks right now:** A two thirds majority vote is required in the 100-member Senate. A conviction is unlikely - Republican = 53, Democrat =45, and two Independents. The Democrats, plus 2 Independents, plus 20 Republicans would be needed to remove the president from office. McConnell's looking at swift proceedings and he has openly stated he is working closely with the White House lawyers.

Senate Minority Leader, Chuck Schumer sent a letter to McConnell on Sunday that details witnesses and timeline Senate Democrats would like to see in the trial. Schumer proposes that Supreme Court Chief Justice John Roberts, who will preside over the Senate trial, issue subpoenas to four administration officials who were asked to testify in the House but did not appear: Acting White House chief of staff Mick Mulvaney, former national security advisor John Bolton, senior advisor to the Acting White House chief of staff Robert Blair, and Michael Duffy, associate director for National Security, Office of Management and Budget (that oversaw the funds for Ukraine). Schumer is concerned that there will not be a fair trial. Schumer will be pushing for witnesses and documents to help get the truth out. •

## LEGISLATION IN 2019

**Here's what you need to know. House Democrats have PASSED nearly 400 bills to date in 2019. Mitch McConnell, Majority leader in the Senate along with Trump Republicans have IGNORED.**

When Trump tweets "the do nothing Democrats", we need to respond! We need to set the record straight, we need to share with everyone that the **Republican Senate is the legislative graveyard.**

It's NOT the Democrats. McConnell has refused to bring most of the bills to the floor for votes. **He calls himself, the grim reaper.** He is deriding any legislation that he deems socialist. Many of the bills are bipartisan issues like: universal background checks, net neutrality (which is the principle that Internet service providers must treat all Internet communications equally), reauthorizing the Violence Against Womens Act, lowering prescription drug prices. Can you imagine not even bringing any of these to the floor?

**McConnell is the DO NOTHING.** The only concern for McConnell is confirming conservative judges, many who are not qualified or approved by the American Bar Association. McConnell has led the confirmation of over 150 Trump federal bench nominees. These appointments will change the courts for decades. •

## PAC CANDIDATE CONTRIBUTIONS

**Tri-State Maxed-Out Womens PAC, collectively has contributed almost \$200,000 to pro choice Democratic women candidates up for re-election in 2020 and over \$250,000 from our members directly to candidates.**

Together we have already Maxed Out primary cycle money to 28 House members in challenged races. The Dems **MUST WIN BACK** the Senate Majority to get any of those bill passes we discussed above.

Our PAC- year to date-has also contributed to; the two women incumbent Senators up this cycle; Senator Jeanne Shaheen New Hampshire, and Minnesota Senator, Tina Smith. We are in full support and have Maxed Out primary cycle money to three of the Senate candidates who are viable to WIN seats in Maine, Sara Gideon vs Susan Collins, in Iowa, Theresa Greenfield to unseat Joni Ernst, and in the open seat in Kansas, Barbara Bollier who recently switched parties to run on the Democratic ticket. The PAC will be looking at new candidates in 2020 that have recently jumped into other Senate races. We are committed to working together to keep the firewall in the House, WIN the Majority Back in the Senate and to put a Democrat in the White House! •

**A few of the critical bills passed in the House, NOT brought to a vote on the Senate floor:**

**H.R.1** Anti corruption, pro democracy reform to restore Saving Net Neutrality
